İNŞAAT TİC. Ve SAN. LTD. ŞTİ.

PREFACE

It is no doubt that Eren Construction Ltd. is an experienced construction and engineering firm with a sound background of 20 years in the sector. In the course of these foregoing years, we have adopted at Eren Construction Ltd. the working principles based on a quality production and services considering the entire projects undertaken.

In respect of implementing the existing technological and management systems, the firm has a broad vision and it is open for any innovation.

In this context, in order to be integrated under the ISO 9001:2000 Quality Management System (QMS) established in 2002, we, at Eren Construction Ltd., are conducting our projects under the practices of ISO 14001 Environmental Management System (EMS) and OHSAS 18001 Health and Safety at Work (HSMS) system formed in the year 2004.

We, at Eren Construction Ltd., firmly trust that, under the light of our experiences and our knowledge in the field of engineering and with the major contributions of our experienced personnel, such systems will serve as an important advantage in the rational management of the existing machinery and equipment. Thus, we have ultimately aimed at attaching a priority to quality in production and services, and maximizing customer satisfaction in line with the increasing productivity level.

Taking this opportunity, I would like to extend my special thanks to the entire personnel working at our firm and to the consulting SGY firm that have contributed a great deal in the establishment of the management systems.

Yaşar EREN
